### **About Nuformix**

Nuformix is a pharmaceutical development company focused on unlocking the therapeutic potential and value of known drugs to develop new novel medicines which provide therapeutic and commercial advantages to the currently available drug form. Nuformix's model of repurposing drugs utilises many technologies but is focussed on its acknowledged expertise in the use of cocrystal technology through which the Group has developed and patented novel forms of small molecules. Its platform is not therapy-specific but instead has broad application across a wide range of indications. Using its technology, the Group is developing proprietary medicines for its own development pipeline and in partnership with pharmaceutical and biotech companies.

Nuformix plc shares are traded on the London Stock Exchange's Official List under the ticker: NFX. For more information please visit [www.nuformix.com](http://www.nuformix.com).
